

IN THE CLAIMS:

Please cancel Claims 1-24, without prejudice or disclaimer of subject matter, and add new Claims 25-31. The following is a complete listing of claims and replaces all prior versions and listings of claims in the present application:

Claims 1-24 (canceled)

~~Sub B1~~
Claim 25 (new): A control method of remotely controlling an imaging apparatus, the method comprising:

~~TAS~~
a reception step of receiving a captured image transferred by an isochronous transfer from the imaging apparatus;

a frame determination step of determining a shape and an area of a frame to be set within the captured image by the imaging apparatus;

~~TAS~~
a first command generation step of generating a first command for causing the imaging apparatus to set the frame within the captured image; and

a first command sending step of sending the first command to the imaging apparatus by an asynchronous transfer.

~~TAS~~
Claim 26 (new): A method according to claim 25, wherein the shape of the frame to be determined in the frame determination step is rectangular, circular, polygonal, or one pixel.

Claim 27 (new): A method according to claim 25, further comprising a display
T+S step of displaying the frame on the captured image.

Claim 28 (new): A method according to claim 25, further comprising:
T+S a function determination step of determining a function to be set in the frame;
a second command generation step of generating a second command for
causing the imaging apparatus to process the captured image according to the determined
function; and

AZ a second command sending step of sending the second command to the
imaging apparatus by an asynchronous transfer.

Claim 29 (new): A method according to claim 28, wherein the function to be
T+S determined in the function determination step includes a focus, an exposure, a white balance, and
a digital zoom.

Claim 30 (new): A method according to claim 28, further comprising a display
T+S step of displaying the frame on the captured image.

Claim 31 (new): A method according to claim 30, further comprising a color
change step of changing a color of a rim of the frame according to the function determined in the
function determining step.
